

# Welcome to the Grandview Lodge!

Our largest, "flagship" lodge is known as the *Grandview Lodge*.

The Grandview is a unique, 6500 square foot Log Lodge built from gigantic, pine timbers imported from Norway by the original owner, renowned artist, Ann Adams.

Situated on Beech Mountain, near Banner Elk, North Carolina, in the beautiful Blue Ridge Mountains, the lodge is unparalleled in size and beauty in this area.

The lodge has always been imbued with a great deal of charm and character, but now it has been renovated to include:

The lodge includes a huge deck with panoramic views of Grandfather Mountain, the most famous scenic element of this area. The deck is large enough to have a party for your entire group, with part of it covered for snowy or misty times.

Inside, the lodge has 10 bedrooms, in many configurations, with enough beds to hold up to 40 people. There are six full bathrooms. The huge living room regularly accommodates group meetings for over 30 guests. The living room also features Satellite TV, a DVD player, VCR, fireplace and the same beautiful view as seen from the deck.

The upstairs kitchen features two refrigerators, large oven and enough cookware and dinnerware to feed your whole group. There are three dining areas (one with a fireplace) with tables and chairs enough to seat over 30 people at a time.

The 10 bedrooms offer myriad combinations of beds and bed sizes to accommodate almost any group's needs. From a cozy, private room with one king size bed, to a huge bedroom (the former "Master Suite") which features a king, two doubles and a twin.

All of the bedrooms have recently been upgraded with matching "nature" themed quilts and pillow shams that are a perfect compliment to the logs and open beamed ceilings.

Downstairs there is a cozy living room which includes a gas fireplace, pool table, foosball table for the kids (or the young at heart). There is also a second kitchen for your group's larger cooking needs.

## *Get Comfy in the Jamestown Cabin!*

Just across the way from the main lodge is the *Jamestown Cabin*. The Jamestown has the look of a converted barn (which it is!) and the feel of a true mountain cabin, with all of the modern amenities.

The Jamestown can accommodate up to 14 guests. On the ground floor it features a cozy bedroom with a double bed and a bathroom with a roomy shower. Upstairs is a large "dormitory" style room with a king, three doubles and a twin, plus a reading area.

It has its' own kitchen, dining area, fireplace, gas grill, picnic table and hot tub, but it is close enough to the Grandview to share all amenities if both are being rented by the same group.
